

Project 2 – How Age Affects a Home's Price

MTH 161 – Fall 2024

Corbin Madson

2024-11-19

Introduction

How does the age of a home impact its price? How much of an impact does age have compared to other variables? To examine this I am using the ames dataset, which contains information on houses in Ames, Iowa.

Link to dataset: <https://www.openintro.org/data/index.php?data=ames>

Relevant variables include: price - Sale price in USD. Year.Built - Original construction date. Year.Remod.Add - Remodel date (same as construction date if no remodeling or additions). Lot.Area - Lot size in square feet. Neighborhood - Physical locations within Ames city limits.
